Allowable Subject Matter

Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance: The instant application is allowable over the cited prior art, because the cited prior art fails to disclose a process comprising contacting a regeneration inlet stream with a catalyst and contacting a desorption inlet stream with an adsorbent.

Sechrist teaches a process in which a regenerant gas contacts a catalyst in a catalyst bed in order to regenerate that catalyst and in which the contacting removes chloro-species from the catalyst. However, Sechrist does not teach or suggest a process that comprises both contacting a regeneration inlet stream with a catalyst and contacting a desorption inlet stream with an adsorbent. Sechrist also teaches away from using an adsorbent that is separate from the catalyst.

With respect to the 35 USC 101 rejection in view of copending U.S. Application No. 10/007,853 on the grounds that claims 1-22 of the subject application claim the same invention as the claims of '853, in view of Applicant's remarks the rejection has been withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
